

Microsoft Copilot Dashboard

Drive adoption and measure impact

Microsoft Copilot is ushering in new ways for how we all approach work.

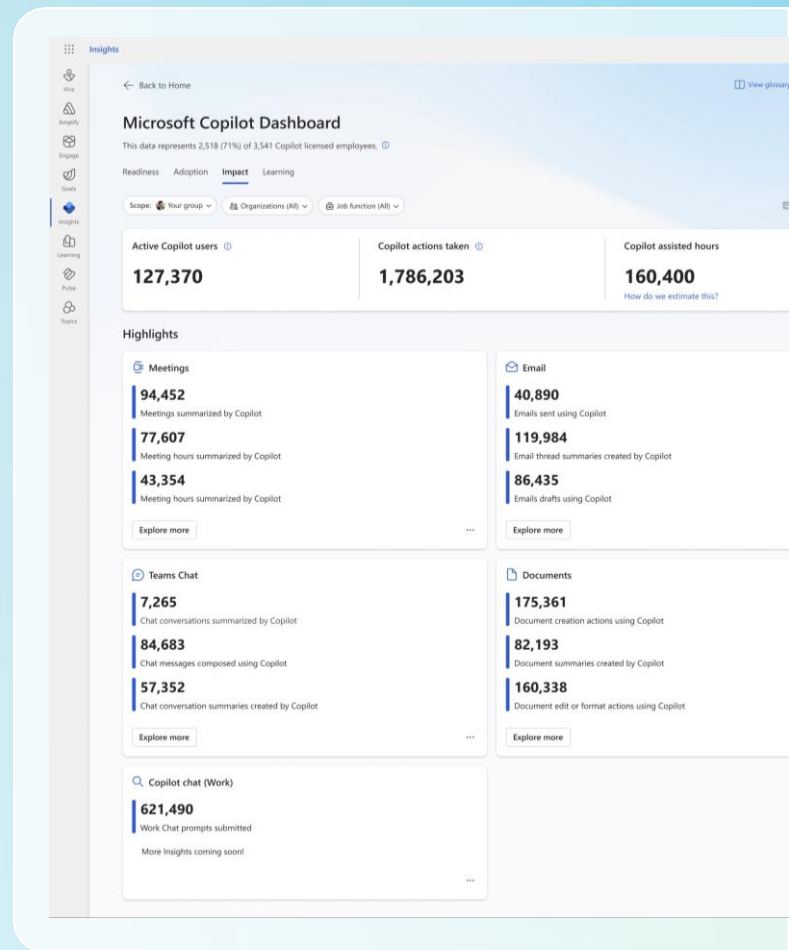

Copilot delivers automation for routine tasks, freeing up more time for the creativity and innovation that makes work, work better.

Understanding how Copilot is being leveraged by your organization is paramount. That's why we created the Microsoft Copilot dashboard.

The Copilot Dashboard will help you:

- Prepare for your Copilot rollout
- Understand how employees utilize Copilot
- Measure the impact of your investments.

The Copilot Dashboard is an accessible, easy to use, resource for you to gain data-driven insights into your organization's Copilot journey.

**Assess workplace
readiness**

**Identify adoption
trends**

**Measure the
impact**

**Leverage the
latest AI learnings**

Deeper insights for Viva Insights customers

The advanced Copilot Dashboard offering, available with a Viva Insights subscription, combines Copilot usage metrics with collaboration and user sentiment data to more deeply understand usage, drive adoption, and measure impact.

In addition to this out of the box Copilot Dashboard experience, Viva Insights analysts can create custom reports to help answer your unique questions about your Copilot rollout and return on investment.

Copilot Dashboard features and capabilities		License requirement	
		Microsoft 365 or Office 365	Viva Insights*
Readiness	Tenant level visibility into Copilot eligibility, licensing, and activation status.	●	●
